

	<b>If you are elected to Council, will you take the time to tour the Dynamyx Gymnastics Facility as well as the Border Paving Athletic Centre in Spruce Grove?</b>	<b>If you are elected to Council will you be prepared to support adding gymnastics facility to the city's capital plan?</b>
Cam MacKay	Yes although the first part has been done	I would certainly consider this and examine it when the project is defined further in cost and scope
Cathy Heron	I have already been, but if I am elected Mayor not only will I go again I will arrange it for all of council to go and have the Mayor of Spruce Grove do a similar presentation that he did the last time we visited.	I would love to explore all options.
Malcolm Parker	Yes.	I would be prepared to review the business case (Project Charter) and if the justification supports adding a gymnastics facility to the capital plan then I would support having it included in the capital plan subject to it being prioritized with other identified projects.

Wesley Brodhead	I have toured the Dynamyx Facility and will be more than willing to tour the Border Paving Athletic Centre should I be re-elected to Council.	As stated, I believe the sport of gymnastics needs to be a part of the future facility planning program for the City of St. Albert. I have supported such efforts to date, and will continue to do so if re-elected to Council.

Jacy Eberlein	The answer to the first three questions is yes.	The last one is something that will still require further research.
Jacquie Hansen	Yes.	I am in support of Capital Plan adjustments providing all options have been explored and it is cost effective. There is no doubt that as St. Albert grows, facilities will need to be considered. However, stand alone facilities may be cost prohibitive, and so if elected I would like to have a bigger conversation about shared facilities, optional funding models and long term sustainability. I believe that a collaborative discussion amongst stakeholders that considers the long term vision of St. Albert is critical.
Sheena Hughes		No response
Charlene Jelinski	Yes. It is important to understand the restrictions of the current space, I know that parking is horrific but after speaking with Cathy am aware of more issues such as need for modernization, larger space and beams presented difficulty for equipment set up.	I do think it should be considered if the demand is there. I am still waiting to review the research/analysis' prior to committing to same

	<b>If you are elected to Council, will you take the time to tour the Dynamyx Gymnastics Facility as well as the Border Paving Athletic Centre in Spruce Grove?</b>	<b>If you are elected to Council will you be prepared to support adding gymnastics facility to the city's capital plan?</b>
Mark Kay	Absolutely. You learn from other facilities what to do and not to do, and then make it better.	Provided after figuring out the above, and finding a plausible monetary solution, absolutely.
Ken MacKay	Thank you for making the arrangements to visit and be excellent hosts. I have spoken with friends in Spruce Grove and will be finding some time to go there to look and speak with staff.	I would be willing to work with your Club and Administration to find a solution to a gymnastics facility in St Albert, whether in the city's capital plan or in another innovative method i.e. joint-use, campus.
Ufuoma Obebala-Fregene	No response	
Nestor Petriw	I would be happy to visit the Dynamix Facility again (our four kids attended Dynamix for several years before they went on to attend University. The Dynamix experience helped them in many ways, physically, emotionally, and intellectually). I am curious to see how much the club has changed and to speak with your representatives about how you can best serve the future needs of our community.	This is not a simple issue and should not be answered without considering all the options. I am prepared to support having meaningful discussions on the subject to determine what options would best serve the community. There is bound to be more than one alternative to building such a facility. In my view, it is critical that the funding of such a project be planned in a manner that will produce the best result for the whole community without burdening the taxpayer.
Hannes Rudolph	If elected, I would be honored to take the time to tour the Dynamyx Facility and learn more about your club and what it has to offer as well as the challenges that you currently face in St. Albert. I am not entirely sure how the Athletic Centre in Spruce Grove relates to our City, but if it provides a means of comparison and offers some insights into how we can provide better access to our kids in St. Albert, then I would plan to visit the Centre in Spruce Grove as well. I would need more information about that though before I can commit to visiting any other towns for comparison.	I am prepared to hear a case for building a facility and to learn how we might be able to integrate it into our city's capital plan. Obviously, the news right now is full of coverage about the library, rink and swimming pool especially given the questions on the plebiscite. However, no one is sure what is going to be built. It is always helpful to at least be aware of the need for other facilities, such as a place for gymnastics, so that proper planning can integrate this need into the Capital plan if possible.
Bob Russell	No response	
Steve Stone	Yes	Need to review all our city's needs, acknowledge those needs, coordinate with all interested parties including the community at large. Priorities must be sorted out and ensure it corresponds with our Community's values, professional planning and responsible spending. Only after these considerations are undertaken – and not before - would it be fair to go to the next step, which is the City's Capital Plan.

	<b>If you are elected to Council, will you take the time to tour the Dynamyx Gymnastics Facility as well as the Border Paving Athletic Centre in Spruce Grove?</b>	<b>If you are elected to Council will you be prepared to support adding gymnastics facility to the city's capital plan?</b>
Tash Taylor	Of course. In fact I would be interested before being elected to learn more in person, although my daughter did attend Dynamyx many years ago.	I definitely think the City needs to address this long-standing request. My impression is that Dynamyx has been trying to jump through many hoops and plead the case for years – and as a non-profit this is taking up valuable resources from your operation. I think this proposal needs to be addressed in the Capital plan and also in conjunction with how we might be able to house the space needs from the numerous sport/rec groups coming forward at this time.

Barry Zukewich	Most definitely.	Most definitely. I am a firm believer that the more options for activities that we are able to offer the children of St. Albert, the better our community will be. I would never dismiss such a proposal as every recreational addition to our community should be explored.
